

HOW IT WORKS

We work in partnership with you to discover what your compliance needs are and provide you with tailored solutions.

The Journey Begins

You will be welcomed by our business development coordinators who will be your first point of contact

Scoping

The team will get to know you, and your products, to make sure we find the right services to guide you to compliance, and keep your launch on track.

We will ask you for:

- Type and number of products
- Images of the pack copy/label/artwork
- Countries you are intending to sell in
- Your timeline requirements
- A basic outline of your product positioning

Quoting

Once we have established the scope, we provide a quote. During this process if we need any more information the coordinator will be in touch.

Turn Around Time (TAT):

Quoted depending on complexity and availability of experts

Cost:

Quoted depending on complexity, services and TAT

Contract

When the quote has been agreed you will receive your contract via DocuSign.

Once signed, you will be introduced to the expert advisor who will manage your project and be your point of contact throughout the journey.

Delivery

The expert managing your project will deliver a comprehensive report to you.

Follow Up

As you review the report we understand you may have questions. Your expert is here to help should you need further clarification or explanation on any of the advice given.

A note from our team:

We are happy to answer your questions relating to the report, any new advice may incur further cost; we'll let you know.

Subsequent Reviews

Where necessary, we will quote and complete additional reviews on subsequent versions of your product information to ensure that all advice has been applied correctly.
